

**Create a calming sanctuary on your dental chair for your patients, both child and adult with our wipe-clean weighted blankets. Perfect for patients with Anxiety, ADHD, Autism, OCD and any other condition which causes anxiety, such as visiting the dentist.**

**If you treat nervous or special needs patients, a weighted blanket will greatly improve their sense of comfort. Weighted blankets have been proven to reduce anxiety, to calm and reassure. Used in conjunction with our [memory foam head rests and supports](#), your patients will be in bliss.**
